LEGEND

1 -	New Plants Feasibility Studies, Project Scheduling and Investment Budget
2 -	Plants Revamping Studies, Project Scheduling and Restructuring Budget
3 -	Plant Technological Design, Machinery Specifications and Basic Engineering
4 -	Detailed Design and Engineering for Construction and Erection
5 -	Simulation Studies for Plant Lay-out finalization
6 -	Automatic in-process Storage Systems: Basic Design and Specifications
7 -	Standard Production Costs Evaluation
8 -	Assistance to Equipment Procurement (Vendor's Quotations evaluation, Assistance in final negotiation, contractual documents editing)
9 -	EPC Contractor: Specifications, Selection and finalization
10 -	Project Management, Planning and Cost Control, Expediting, Shop Tests
11 -	Site Management and Site Costs Control

NOTES

- (a) Site Selection
- (b) Technical Evaluation of the two Bidders Quotation
- (c) Technical Evaluation of the Project Design
- (d) Pipe line tests

- Development of the activity
- Consultancy or coordination of subcontractors activity

12 -	Economical and Financial Assessment of the Investment
13 -	Plant Operation Organization: Manning, Job Description & Personnel Training
14 -	Business Planning and Strategy Consulting
15 -	Products Market Studies
16 -	Quality Assurance: Manual, Operation Procedures, Technical Instructions
17 -	Companies' Assets Evaluation: Tangible and Intangible
18 -	Environmental and Safety Risks Analysis
19 -	Start-up, Performance Tests Procedures and Manuals
20 -	Business Risks Analysis during Construction, Start-up and Operation
21 -	Other Activities
